RE: **SKUTUMPAH FIELD WASH RESERVOIR**
WATER RIGHTS 85-248 / 85-255

To Whom It May Concern:

Attached herewith is a copy of correspondence received by this office regarding the captioned reservoir and associated water rights. The correspondence refers to concerns of other water users downstream of the reservoir and asserts that TLB, Ltd., owner of the reservoir and water rights, has failed to comply with the actions set forth in prior correspondence from this office (dated 13 January 2003) intended to assure that the reservoir is consistent with the current statutes and policies governing water rights, dams and natural stream alteration activities.

The correspondence was accompanied by several photographs which have been forwarded to our Salt Lake office for filing. Because these did not produce photocopies of acceptable quality, no copies are being provided with this mailing.

You are advised to review this correspondence. Any response should be provided to the complainants at the addresses listed below and to this office. All correspondence received by this office shall be placed on the pertinent file(s) and shall become part of the public record.

Sincerely,

Kerry Carpenter, P.E.
Region Engineer
